

Bazigh Ali Minhas

SENIOR PYTHON DEVELOPER | DJANGO • FASTAPI • BACKEND • AI/LLM • AUTOMATION

+9234-827-7605 · bazighminhas1@gmail.com · www.linkedin.com/in/bazighaliminhas
· <https://github.com/bazighaliminhas> · Lahore, Pakistan

Senior Python Developer with **6+ years of experience** building scalable backend systems, REST APIs, microservices, automation workflows, and AI-enabled applications using **Python, Django, FastAPI, Flask, PostgreSQL, Redis, and AWS**. Skilled in asynchronous processing, database optimization, API security, background jobs, AI/LLM integrations, testing, and cloud deployment.

EXPERIENCE

Senior Python Developer

2024 – Present

WinLogics — Remote

- Build scalable **Django/FastAPI backend services and REST/GraphQL APIs** using PostgreSQL, Redis, Celery, Docker, and AWS, improving backend performance by **~30%**.
- Develop **async workflows, background jobs, authentication, caching, AI/LLM integrations, and third-party APIs**, improving operational efficiency by **~35%**.

Python Backend Engineer

2022 – 2024

10Pearls — Hybrid

- Developed production-grade applications using **Python, Django/FastAPI, PostgreSQL, Redis, WebSockets, REST APIs, and Celery**, reducing service latency by **~25%**.
- Built reusable services with **OAuth/JWT authentication, scheduled jobs, API integrations, testing, monitoring, and automated deployment**, improving reliability by **~30%**.

Python Developer

2020 – 2022

Systems Limited — Onsite

- Developed enterprise backend applications using **Python, Django/Flask, PostgreSQL/MySQL, SQLAlchemy, REST APIs, Redis, and Docker**.
- Improved system reliability through **query optimization, caching, authentication, automated testing, structured logging, background processing, and CI/CD**, reducing recurring issues by **~20%**.

EDUCATION

Bachelor of Science in Computer Science

2016 – 2020

COMSATS University Islamabad

SKILLS

- Python Backend: Python · Django · FastAPI · Flask · REST APIs · GraphQL · WebSockets · Pydantic
- Architecture & Async: Microservices · Clean Architecture · SOLID · AsyncIO · Celery · Background Jobs · Event-Driven Architecture
- Databases: PostgreSQL · MySQL · MongoDB · Redis · SQLAlchemy · Django ORM · SQL · Query Optimization
- API & Security: OAuth 2.0 · JWT · RBAC · API Keys · Rate Limiting · Input Validation · OpenAPI/Swagger
- AI & Automation: OpenAI · Claude · Gemini · LangChain · RAG · AI Agents · Prompt Engineering · Workflow Automation
- Cloud & Quality: AWS · Docker · CI/CD · GitHub Actions · Linux · Nginx · Pytest · Postman · Git

PROJECTS

HealthCore — Healthcare Information Platform

Python | Django/FastAPI | PostgreSQL | Redis | AWS

- Built a secure healthcare backend supporting **appointments, patient/provider workflows, RBAC, notifications, document management, and scalable REST APIs.**

RecoFlow — AI Recommendation Platform

Python | FastAPI | Pandas | scikit-learn | Redis | PostgreSQL

- Developed a recommendation service using **behavioral data, ranking logic, feature processing, caching, and API-based personalized recommendations.**

AgentFlow AI — Intelligent Automation Platform

Python | FastAPI | Celery | Redis | OpenAI | AWS

- Built an AI-powered automation platform with **LLM workflows, scheduled tasks, background processing, document extraction, API integrations, and intelligent routing.**
