

Bazigh Ali Minhas

SENIOR RUBY ON RAILS DEVELOPER | BACKEND ENGINEER | FULL-STACK DEVELOPER

+92-(348)-272-7605 · bazighminhas1@gmail.com · <https://www.linkedin.com/in/bazighaliminhas/>
· <https://github.com/bazighaliminhas> · Lahore, Pakistan

Results-driven Software Engineer with 6+ years of experience building scalable web applications, backend systems, RESTful APIs, SaaS platforms, and database-driven products. Skilled in Ruby on Rails, PostgreSQL, Redis, Sidekiq, REST APIs, JavaScript, Docker, Git, CI/CD, and cloud-based application workflows. Strong background in backend architecture, API integrations, authentication, payments, performance optimization, testing, and production deployment.

EXPERIENCE

Senior WordPress Developer

2024 – Present

WinLogics — Remote

- Developed scalable **web applications and backend systems** for product-based platforms with a focus on maintainable architecture and API-driven workflows.
- Built and integrated **authentication, payments, notifications, admin dashboards, background jobs, and third-party APIs** for production-ready applications.
- Improved application performance, reliability, and delivery speed through **query optimization, refactoring, caching, and deployment improvements**.

Backend / Full-Stack Developer

2022 – 2024

10Pearls — Hybrid

- Developed and maintained **RESTful APIs, database-driven modules, and business workflows** for scalable web and mobile products.
- Integrated **external APIs, background processing, analytics, secure authentication, and role-based access control** across multiple client solutions.
- Reduced issue resolution time by **25%** through debugging, testing, and performance optimization.

Software Engineer

2020 – 2022

Systems Limited — Onsite

- Built backend features, APIs, and application workflows for enterprise products using modern web development practices.
- Designed reusable modules, database operations, and integration services to improve maintainability and system responsiveness.
- Improved development efficiency by **15%** through reusable code patterns, bug resolution, and implementation support.

EDUCATION

Bachelor of Science in Computer Science

2016 – 2020

COMSATS University Islamabad

SKILLS

- Languages & Frameworks: Ruby · Ruby on Rails · JavaScript · HTML · CSS
 - Backend Development: RESTful APIs · MVC Architecture · Authentication · Authorization · Background Jobs · Service Objects · API Integrations
 - Databases & Caching: PostgreSQL · MySQL · Redis · Database Design · Query Optimization
 - Rails Ecosystem: Sidekiq · RSpec · Active Record · Action Mailer · Devise · Pundit · Kaminari
 - Frontend & Full-Stack: ERB · Bootstrap · Tailwind CSS · React Basics · Responsive UI
 - DevOps & Tools: Git · GitHub · Docker · CI/CD · Linux · Postman · Swagger · SSH
 - Cloud & Deployment: Heroku, AWS, Nginx, Puma
 - Testing & Quality: RSpec · Unit Testing · Integration Testing · Debugging · Performance Optimization
 - Product Features: Payments · Notifications · Admin Panels · SaaS Workflows · Role-Based Access · Multi-Tenant Architecture
-

PROJECTS

CloudFlow — SaaS Workflow Platform

Ruby on Rails | PostgreSQL | Redis | Sidekiq | Stripe

- Built a SaaS workflow platform with subscriptions, user roles, background jobs, payment integration, and scalable admin tools.

MediConnect — Healthcare Management System

Ruby on Rails | PostgreSQL | REST APIs | Redis

- Developed a healthcare system with appointments, secure records, notifications, and API-driven workflow automation.

AutoPilot — Business Process Automation Platform

Ruby on Rails | Sidekiq | PostgreSQL | OpenAI API

- Built an automation platform for scheduled jobs, approvals, intelligent routing, and AI-assisted business workflows.
